When legality matters most

Potential threats to "Uncertified Shipments"

- Associated with risk on illegal origin and inferior quality
- Hampers market reputation
- Lesser demand in comparison to certified wood
- Risk arising at customs related to credibility of the product
- Mixing of certified and non-certified composite wood products

How LCATS Shipment Certification can help?

- Address obligations of international timber compliances like EUTR, US Lacey and Australian timber legality compliances.
- Follows Due Diligence System (DDS) to certify individual shipments
- Covers all timber species other than *Dalbergia* wood found in India like Mango, Acacia etc. not covered by Vriksh (CITES) shipment certification

How Safewoodboard Shipment Certification can help?

- Ensures safeguarding end-consumers from sick building syndrome
- Smoothen and enhance the supplier-buyer relationship
- Help combat regulatory requirements

Unique Features of Certification Programme

- Certifies shipment consisting of all timber species (other than *Dalbergia* wood) and ensuring exported products meet formaldehyde emission regulations and guidelines of the destination country
- A single certificate that covers all species in a single shipment
- Dedicated portal for smooth submission, processing and tracking
- Offers options for normal and express mode of shipment certificate delivery

GICIA India Pvt. Ltd

B-801, 8th Floor, Tower-B, ATS Bouquet, Sector-13,
Gautam Budh Nagar, UttarPradesh-201304, India.

When legality matters most

Key benefits of LCATS & SSC Certification

- Fulfill country specific timber legality and formaldehyde emission requirements
- Access to wide range of markets
- Increase confidence of buyers

How to get Shipment Certification?

- Submission of shipment application via web-based portal
- Uploading Chain of custody and other relevant documents
- Payment of minimal fee as per your category and desired mode
- Getting your shipment physically verified

What you need to do?

- Request your sellers in India to get their shipment verified via LCATS and Safewoodboard shipment certification
- Ask sellers in India to accompany shipments (consisting of timber species other than Dalbergia wood) with LCATS and SSC certificate with a valid "Permit Number"

WHY GICIA India Pvt. Ltd.?

- NABCB Accredited third party certification and inspection agency in India
- Several years of experience in certification services like PEFC (CoC & FM), CARB & EPA TSCA Title VI Certification, Life cycle Assessment (LCA), EPA Pesticide Registration services, etc
- A respectful name in Indian market with their significant impact in development and implementation of different certification scheme like Vriksh , etc
- Authorized by EPCH as auditing agency for Vriksh Chain of custody and Vriksh (CITES) shipment certification in India
